

CANADIAN ISO 17799 USER GROUP CONFERENCE

Now is the time to reflect on the latest ISO17799 standard development, exchange ideas and discuss future directions for the information governance.

Since we are all pressed with new legislations, management systems and procedures and processes, this ISO17799 user group will focus on the ISO17799 positioning, current situation and new directions taking place all over the world. Therefore, the conference agenda will reflect governance challenges and the ISO17799 role.

We are proud to present world recognized speakers and to underline important information governance contributions of the ISO17799 user group.
