COMPANY OVERVIEW

- Founded in Spring 2002
- Leader in Exposure Risk Management (ERM)
- Founders: Sanctum, Memco, Israeli Military Intelligence
- Product: Skybox View—GA October 2003
 - Proactive and continuous automation of risk management
 - Leverages current security & network infrastructure
 - Unique contextual modeling and attack simulation

CRITICAL SECURITY QUESTIONS

- What are the current risk levels of my critical business applications?
- How do I find & mitigate critical risks in hours versus weeks?
- Where do I deploy my limited resources for maximum ROI?
- How do recent system changes or new vulnerabilities impact my security?

THE CHALLENGE: INFORMATION OVERLOAD

- 10's or 100's of business applications
- 1000's of servers, routers & firewalls
- 10,000's of vulnerabilities
- Constant network changes
- 10 new vulnerabilities published daily

CURRENT SOLUTIONS ARE MANUAL

7

CONFIDENTIAL ©COPYRIGHT 2003, SKYBOX SECURITY, INC. ALL RIGHTS RESERVED.

skybox
security

THE RESULTING PAIN

- Huge window of exposure
- Preventable security incidents
- Resources deployed on non-critical issues (e.g., over-patching)
- Unknown state of security
- Chasm between business managers and security team

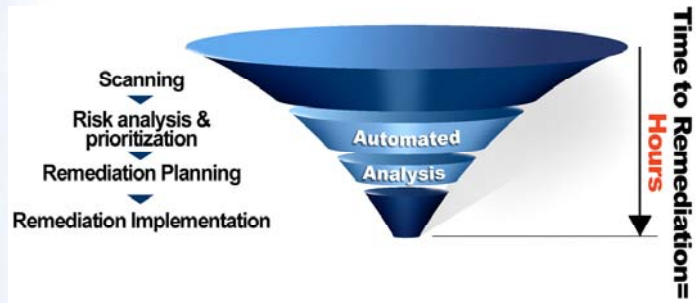

= Decreased security level & increased costs
